AMENDMENT

Sir:

Please amend the above-identified application as follows:

IN THE SPECIFICATION

Please add paragraphs to the specification after paragraph 5 and before the heading Brief Description of the Drawings on page 5 as follows:

Summary of the Invention

In one aspect of the present invention, a transient dilution air control arrangement for controlling a dilution air supply to a partial flow dilution tunnel of a gas sampling system is provided. The partial flow dilution tunnel is connected to an exhaust pipe of an internal combustion engine. The gas sampling system has a first mass flow controller operatively connected to an inlet of the partial flow dilution tunnel, a second mass flow controller connected to an outlet end of the partial flow dilution tunnel and a filter interposed
